

Reelvision Print Limited manufactures printed folding cartons for the pharmaceutical, veterinary, cosmetic and other markets,
We fully comply with the requirements of ISO 9001:2015, PS 9000:2016, ISO 14001:2015 and FSC-STD-40-004_V3-1, and promote sustainability in all areas of the business.

In order to achieve this, we will encourage and instruct all staff to operate within the following guidelines:

- Comply with all the legal requirements and other requirements of the above standards.
- To minimise the consumption of natural resources and energy.
- To consume material goods with consideration and in moderation.
- To adopt working practices that will reduce waste and allow for the recycling of materials wherever and whenever possible.
- To ensure that all waste and effluent is disposed of safely, responsibly, and without unacceptable risk to the environment.
- To encourage amongst all staff and clients an understanding of quality and environmental considerations in the context of our business activities.
- Endeavour to influence suppliers and customers in a similar strategic sustainable manner
- measure and analyse sustainability performance, ensuring we satisfy our customers' expectations and needs, address risks and meet our set quality and environmental objectives.

Senior management are responsible for implementing this Policy and, as far as is reasonably practicable, will ensure that:

- Any work carried out will comply with this Policy and this Policy is regularly reviewed, taking into consideration any regulatory changes.
- The requirements of our standards and the protection of the environment are effectively communicated and firmly embedded in both the company's and all employees' culture.
- Employees are educated, trained and motivated to carry out tasks to a high standard of Quality and in an environmentally responsible manner, ensuring that continuous improvement and professional development strategy remains core to our business goals.
- We try to conserve water and energy.
- Recycling of material is promoted, with as much of our waste as possible recycled and material waste kept to a minimum.
- Wildlife and surrounding habitats, trees, flora and fauna are protected.
